11" —

10" —

9" —

8" —

7" —

6" —

## **FIND YOUR SIZE**

Align your heel with the solid line at the base of the chart. Keeping your weight on your foot, relax your toes. The line that touches your longest toe indicates your size. The shorter lines in between the numbered lines indicate half sizes. Since many people have feet of different sizes, it's important to measure both feet. You should purchase shoes in the larger of your two sizes.
